**Press Release – New Product**

**For Immediate Release**

**McFarlane Aviation Products Carries Complete Line of Interior and Exterior Fiberglass and Plastic Aircraft Parts.**

**Baldwin City, KS, December 20, 2018:** McFarlane Aviation Products is rapidly becoming the leading supplier of FAA-PMA approved aftermarket plastic and fiberglass products for the interior and exterior of aircraft. These options utilize improved materials and enhanced manufacturing processes to provide a precision fit and long-lasting durability.

As stated by McFarlane's Sales Manager, John Cowan, "We strive to provide a complete line of high-quality parts for owners and operators by creating a one-stop-shop for all of their aircraft needs. These product lines not only enhance the appearance of the aircraft, they provide customers large cost-savings over factory OEM parts."

McFarlane's huge selection of parts from Aircraft Development, Knots 2U, Premier Aerospace Services & Technology, Stene Aviation, Texas Aeroplastics and Vantage Plane Plastics provide a wide-range of solutions for replacement of damaged and unsightly trim and fairings. These manufacturers provide robust products that meet the highest certification standards, the difference in quality and value is apparent.

McFarlane's extensive background in having the best products on-hand and being able to ship them efficiently leads to less downtime. Everyone sees the outside of an aircraft. Family, friends and clients experience the interior. Use proven parts to upgrade the appearance and enhance the comfort level of any aircraft. All FAA-PMA parts from McFarlane Aviation Products come with complete documentation and are just a phone call away, or order online.

McFarlane Aviation Products has provided general aviation with high quality replacement aircraft parts at an affordable price for over 30 years and was awarded the prestigious 2018 Kansas Governor's Award of Business Excellence!
