Note 1: * Denotes "Or Later FAA Approved Revision"

Note 2: The procedures that are acceptable to the type certificate (TC) or TSO authorization holder and their cognizant FAA Aircraft Certification Office for minor changes to original parts used on type-certificated products, are also acceptable for incorporating the same minor changes on identical FAA-PMA replacement parts. The FAA-PMA holder must show traceability to the TC, STC or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract, or termination of the licensing agreement or business relationship, submit all subsequent minor design changes to the PMA parts in a manner determined by the ACO. TC, STC or TSO authorization holder controls all major design changes to drawings and specifications.
