

GARMIN GTR 205 VHF COMM RADIO FOR CERTIFIED AIRCRAFT

Designed for both fixed-wing aircraft and helicopters, the GTR 205 is a versatile radio that can serve in a variety of aircraft types and panel installations. The 1.3-inch height form factor matches previous-generation SL30 and SL40 radios, enabling easier upgrades and creating more room in space constrained panels. Pilot-selectable 25 kHz or 8.33 kHz channel spacing provides global capability. The radio features a sunlight-readable color LCD display, indicating the currently tuned active and standby frequencies, as well as their station ID – such as KOJC TWR or KSLE ATIS. Standard Kit.....P/N 11-20312
Heli Standard Kit.....P/N 11-20313

with 4 Ft Harness.....P/N 11-17276
with Custom Harness.....P/N 11-17530

GARMIN GTN 635XI GPS / COMM / MFD SYSTEM FOR EXPERIMENTAL AIRCRAFT

Note: Per Garmin, even though this product is certified, we can only sell over the counter to experimental aircraft (must verify) with wire harness. For certified aircraft, you will have to fly to a Garmin install dealer. The 2.64" GTN 635xi puts high resolution terrain mapping, graphical flight planning, multiple weather options and traffic display right at your fingertips. GTN 635 Touch & Go - With its revolutionary touchscreen interface, GTN 635 puts primary functions just a few taps away. Pan across the map screen by swiping your finger across the 4.9" high-resolution TFT display, and enter waypoint data with the onscreen alphanumeric entry. Raised grips in the bezel and a shelf across the lower edge of the display serve as gripping points in both smooth and turbulent flight conditions. Traditional concentric knobs are also available for data input. If you have a GNS 430W/530W, active flight plans automatically crossfill from the GTN to the GNS, or just manually crossfill user waypoints between devices. Unit with 4ft Wire Pigtail Americas.....P/N 11-17832
Unit with 4ft Wire Pigtail International.....P/N 11-17833

GARMIN GPS 175 GPS NAVIGATOR WITH GA 35 GPS ANTENNA KIT STC

Big capabilities come in a small package with the GPS 175 navigator. With its bright, clear high-resolution touchscreen display, you can have the advanced navigation functions you've always dreamed of. Entering flight information is a cinch, and accessing every function is fast and easy. It's equally at home in certificated aircraft or an experimental aircraft. And it's the same 2" height as older navigation equipment and can allow you to keep the legacy composite CDI already in your aircraft to minimize installation cost¹. That makes GPS 175 the smart, affordable way to add next-generation navigation to your favorite airplane.
GPS 175 + GA 35 GPS Antenna.....P/N 11-17226
GPS 175 + GI 275 CDI.....P/N 11-20284
GPS 175 + GNC 215 NAV COMM.....P/N 11-20285

GARMIN GMA 350 AUDIO PANEL

Note: Per Garmin we cannot sell the GMA 350 to certified aircraft. For experimental aircraft please contact us for the wire harness form that is required and allow 2-3 weeks to ship.

The first truly all-digital audio panel, Garmin's GMA 350 introduces a number of new technologies to the cockpit, including voice recognition, 3-D audio processing, advanced auto squelch and more.
GMA 350 Audio Panel.....P/N 11-09667
GMA 350H Audio Panel.....P/N 11-09668
GMA 350C (Standard) w/ install kit.....P/N 11-13824
GMA 350C (Remote) w/ install kit.....P/N 11-13825
GMA 350HC (Helicopter) w/ install kit.....P/N 11-13826

The Garmin GMA 350 can only be sold over the counter to experimental aircraft (must verify) with harness. For certified aircraft, it must be installed by a Garmin Dealer. Please call 1-800-826-3160 for partner shop location for certified installs. (price of installation not included)

GARMIN INREACH® MINI 3 COMPACT SOS SATELLITE COMMUNICATOR WITH TOUCHSCREEN

CHECK-IN MESSAGES - Send simple check-in messages that do not count toward your allotted text messages. **SYNC YOUR CONTACTS** - Easily find your contacts with the Garmin Messenger app and your compatible smartphone. **SEAMLESS CONNECTION** - Use Wi-Fi wireless technology or the cellular connection of your smartphone to send messages. Once you're beyond cell service or Wi-Fi connection, the device seamlessly switches to the satellite network¹. **CONTROL REMOTELY** - Send and receive text messages, or send an interactive SOS message remotely by connecting select compatible Garmin products. **GPS ACCURACY** - The built-in antenna automatically acquires satellites to update your latitude and longitude positions. You'll get global satellite reception in wooded, dense and remote locations. **GARMIN SHARE** - Easily share saved locations and courses with friends' compatible Garmin devices.P/N 11-21031

GARMIN INREACH® MINI 3 COMPACT SOS SATELLITE COMMUNICATOR WITH TOUCHSCREEN
