MYPILOTPRO MOUNTS FOR GOPRO CAMERAS

PIVOT MOUNT

The MyPilotPro GoPro Airplane Mount launched our company, and we have sold these mounts to pilots on every continent in the world! We additive manufacture the mount body using high-strength, rigid glass-filled nylon and incorporate stainless steel hardware throughout. You can attach it to any tie-down on your aircraft without using any tools. Neoprene pads throughout the mount prevent any vibration from making its way to the camera. Made in the USA.....P/N 13-18886

SWIVEL MOUNT

The MyPilotPro Swivel GoPro airplane mount improves upon the original mount, letting users swivel their camera in any direction. We manufacture this mount using thick, high-strength, and rigid glass-filled nylon with stainless steel hardware throughout for superior durability. Mount body is additive manufactured using thick, high strength, and rigid glass filled nylon. Stainless steel hardware throughout Neoprene pads mitigate any vibration going to your camera. Length 1.625", width 1.5", height 5.5" Weighs just 7.9 oz including all hardware Made in the USA P/N 13-18888

SPIDER MOUNT

We designed the MyPilotPro Spider GoPro Cockpit Mount to attach to any windshield, regardless of its shape or size. This includes the curved windshields you sometimes find on aircraft and helicopters. The mount is compatible with all action cameras, including GoPro. Mount is made via additive manufacturing using high strength and rigid glass filled nylon. Stainless steel thumbscrew is included. Universal to all aircraft, boats, and off road vehicles Width 3.75" between tips of suction cups Height 1.75" Very lightweight at 0.8 oz including all hardware Not designed for exterior aircraft use P/N 13-18889

MYPILOTPRO HELICOPTER GOPRO MOUNT

The MyPilotPro Helicopter GoPro mount is designed to stand up to harsh conditions helicopters experience during flight including high G-force and extreme weather. They come in 4 sizes from 0.5" diameter all the way through 2.5" diameter. You can attach them to a wide range of tubular structure on your helicopter from the landing skids down to the smallest tube.

Size	Part Number	Price
Small	13-24035	.
Medium	13-24038	.
Large	13-24039	.
Extra Large	13-24040	.

FLIGHTCAM360 4CH VIDEO FLIGHT RECORDER

4ch Digital Video Flight Recorder with Audio and optional GPS, Wifi, or WCDMA. All Audio/Video is captured to an SD card (128Gb max) at D1 max resolution (720x480@30fps). Each camera (4 max) has it's own associated SD card. Audio is captured from the intercom panel with a supplied audio cable. The Flight recorder can output video in single channel or quad style

format to any NTSC/PAL type monitor for live viewing. Most EFIS units today accept this type of video format as an input. The flight recorder can be configured to record with aircraft power applied, motion activation, or alarm triggers. This is a compact rugged package that makes it convenient for evidence collection activities, training system, or reliable scenic video capture package.

MPP ROBINSON HELICOPTER GOPRO SKID MOUNT

MPP's Robinson GoPro Skid Mount is modeled after MPP's very popular fixed wing Swivel mount design and is made to withstand the harsh conditions helicopters experience during flight including high G-force and extreme weather. The mount attaches to the ground wheel assembly which gives you a great perspective in your video footage!. We are proud authorized partners of Ram Mounts® and we use some of their components on MPP's GoPro Helicopter mounts which allow you to point your camera in virtually any angle and direction.
